

New Ball Wall: A visit from Paudie Butler

On the 24th of January 2012, hurling and wall-ball expert Paudie Butler came to Scoil San Treasa. After

"Big-Break" the players from 6th class hurling/camogie team gathered in the plásóg to welcome Mr Butler.

Paudie started by telling the players, hit the ball while your

thumb is on your hurl and aim at the crossbar. Then they went into hitting the sliotar and catching it,

over and under the posts. Paudie was also encouraging

co-operation, agility and positive thinking

when they were hitting the ball. After that

they got into some competitive games

when the other teachers started to

show up and keep track of the teams' scores. Most of the games were all about catching, staying in your lanes and passing which the boys and girls managed very well.

We had a little accident thanks to Mr Cadigan's off-target shot that hit Paudie but it was and always will be a memorable day in Scoil San Treasa's hurling and camogie history.
